

## **Conservation: Planning**

Planning Report, October 2022

Only one application received since last report

14 Hughes Lane, APPH/22/01142, Proposed alterations to boundary wall

This is a response to a refusal/enforcement on a previous application. It involves making good the wall so that it fits in with original. It also deals with the unacceptable tarmac driveway by incorporating permeable block paving for the last 2m in order to soak up rain and prevent run-off into the unadopted highway.
